XOP

**THE ECO-INTELLIGENT
HYGIENE SOLUTION**

**WITH A SINGLE
MOVEMENT
ECO-HYGIENE**

THE ECO-INTELLIGENT HYGIENE SOLUTION

Proquimia's XOP is a range of concentrated products, in water soluble capsules. Designed for the institutional hygiene and for the following applications: floors, air-fresheners, laundry and dishwashing.

Easy, convenient and safe for the user. The XOP system helps optimizing application costs and is highly performing to meet every hygiene requirement.

Proquimia, pioneer in water-soluble capsules with over 10 years experience in this technology, takes a further step by offering an own innovative technology: packed in a more resistant film, though easy to dissolve. Avoids tears and provides a safer and more efficient system.

Proquimia keeps working to grant its clients with a balance between profitability and environmental impact, providing a comprehensive solution to the most demanding consumers.

Certifications

**ISO 9001 FOR QUALITY, ISO 14001 FOR ENVIRONMENT
AND OHSAS 18001 HEALTH MANAGEMENT SYSTEMS
AND WORKING SAFETY**

WHAT ARE THE BENEFITS OF XOP?

100% ECO-FRIENDLY	→ 	<ul style="list-style-type: none">> High concentrated biodegradable products> Reduced use of raw materials, packaging and energy during production process> 75% less CO₂ emissions during transport> The film completely dissolves in the water, thus avoiding plastic waste> Capsules in carton packaging
APPLICATION COST CONTROL	→ 	<ul style="list-style-type: none">> Precise control over product consumption, same dosage every time> No more waste management costs> Easy to distribute and control> Minimal training required> 85% savings in storage space and transport

EASIER AND MORE CONVENIEN	→ 	<ul style="list-style-type: none">> Dosing system not required> No special preparation, capsule simply dissolves in water

ENVIRONMENTAL BENEFITS

CO₂

**-8.138 tons
CO₂ emissions**

Comparable with the CO₂
produced by **1.630 families**

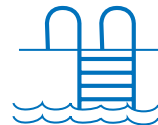

**-6.045
trucks**

Comparable with
26.600 barrels of oil

**-1.791 tons
of plastic**

Comparable with the volume of
426 Olympic swimming pools

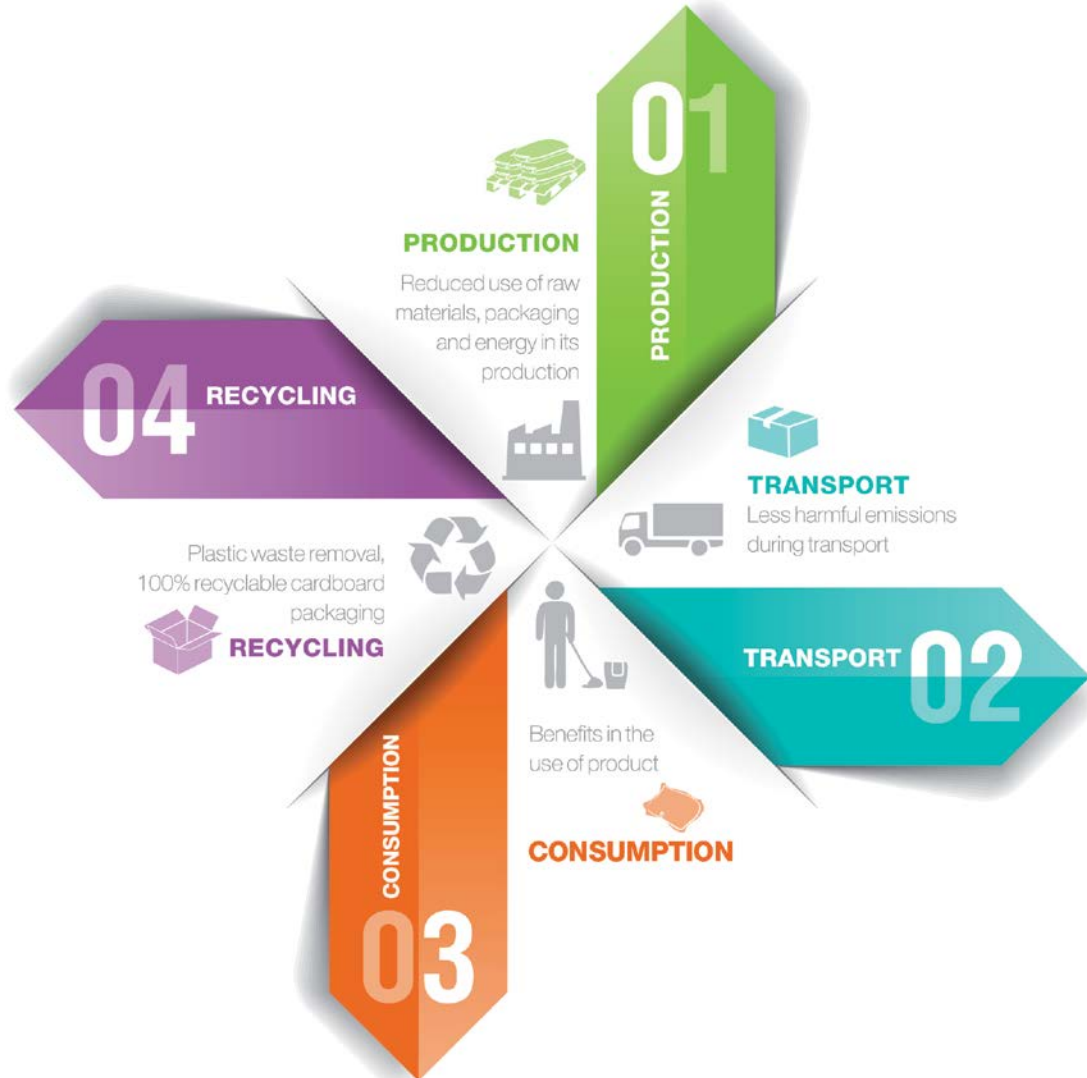

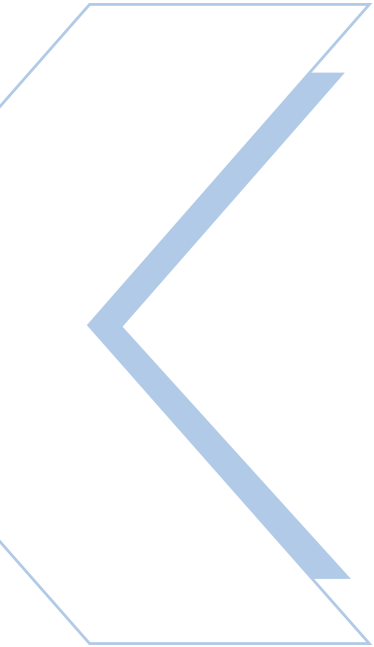

Potential savings with the XOP system, considering the whole Spanish institutional market, based on the annual ADELMA report

**XOP symbolizes the epitome of the term
“eco-design” in the field of sustainability,
by reducing its environmental impact in terms of:**

Proquimia applies, throughout XOP life cycle, the highest standards in terms of environmental quality and keeps above all the efficiency of the products.

**ECO-DESIGN
APPLIED TO ALL
THE PRODUCT
LIFE CYCLE**

The European Ecolabel

The European Ecolabel is a symbol, at Community level, that identifies and officially certifies **products and services that have a reduced environmental impact throughout their life cycle**, from the extraction of raw material through to production, use and disposal.

The aim is to promote products that can reduce the adverse environmental effects, compared to other products in the same category, thus contributing to efficient use of resources and a high level of environmental protection.

The *'flower'* that identifies and distinguishes **ECOXOP** products guarantees...

- ✓ Reduced environmental impact
- ✓ Better biodegradability
- ✓ Less use of hazardous chemical substances
- ✓ Minimization of packaging waste
- ✓ Equal efficiency as conventional products
- ✓ Reducing health risks
- ✓ Labeling with instructions about proper ecological use

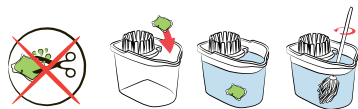

ecoXop
