THE HYGIENE SYSTEM

It's much easier

## → WHAT DOES PROQUIMIA OFFER?

At PROQUIMIA, we manufacture and market chemical products providing integral solutions to contribute to the progress of industrial and institutional sectors as well as to our customers' welfare.

Thanks to our high level of technical expertise and our quality / service ratio offered throughtout 50 years, we have become one of the leading companies in our country and we are one of the market leaders in hygiene and industrial chemical treatments.

### $\rightarrow$ WE **OFFER**

Overall offer of the whole range of products.

Disinfecting products approved by the Spanish Ministry of Health, Social Services and Equality.

A wide range of dosing systems for application and process control.

Customized washing and disinfection programs.

MyProquimia. Customer area for online management of hygiene processes.

Hygiene Training. Specialized and specific training programs for staff.

Proquimia Food Safety. Unit specialized in food safety.

Approved laboratory for microbiological analysis.

Audits of good hygiene practices.

Technical, legal and advisory services.

Environmental solutions: improved sustainable products and packaging.

**MYPROQUIMIA** 

Company certified to:
ISO 9001 Quality Management System
ISO 14001 Environmental Management System
ISO 45001 Health and Safety Management System

## **ECO**CONPACK

by **PROQUIMIA** 

The hygiene system based on a range of highly concentrated products in Bag in Box format, for the cleaning and disinfection of kitchens, housekeeping area and laundry.

Its technology and design ensure excellent operational performance as well as safety and environmental standards that improve the quality of hygiene processes, providing better protection for workers, the environment and the company.

The new generation ECOCONPACK represents an evolution of the Bag in Box concept offering an innovative system of versatility and maximum security. The new exclusive bag design, combined with a perfectly adjusted support, allows the application of product with no external packaging, eliminating the presence of cardboard in the kitchen and other premises.

## **ECO**DESIGN

We have chosen the eco-design as a principle of innovation for the development of the new ECOCONPACK generation.

Throughout the product's life cycle, the various potential impacts on the environment have been identified, in order to minimize them by applying the strictest environmental quality criteria. We therefore offer a system that guarantees respect for the environment, efficiency, easiness and safety for consumers.

The company aims at ensuring that the products meet the European Ecolabel requirements **European Ecolabel** requirements:

- Low impact on the environment
- Same efficiency as conventional products
- Reduced use of hazardous chemicals
- Minimization of packaging waste
- Reduced health risks

 The strengths of the bag in box system are based on 4 principles:

## CONVENIENT

Easy dosing and long term use.

- Can be used without cardboard
- Bag with handles to be placed on the holder
- Visible product level control
- · Redesigned holder, easier to use

## ECOLOGICAL

95% plastic waste reduction.75% transport and storage costs reduction.

- Recyclable packaging (design for recycling)
- Cardboard certified to FCS
- Certified system according to the new ECOLABEL criteria

## ECONOMICAL

Concentrated, highly efficient product with application cost control.

- Product optimization and maximum use
- Extension of the product range: Save much MORE

Easy connection, no product handling.

- Improved color code on labels and product
- Removal of cardboard from damp areas

## FOOD CONTACT SURFACES

## **ECO**CONPACK **DESENGRASANTE**

Highly concentrated ecological degreaser for the cleaning of all surfaces in kitchens.

**Ecolabel Register** ES/CAT/020/010

Bag 1,5 L Box 10 L

## CONPACK

**PLAC** 

Highly concentrated, powerful degreaser. Ideally suited for the cleaning of hot surfaces such as ovens and grills.

> Bag 1,5 L Box 10 L

## **CON**PACK

#### **ASEPVIX**

Alkaline, disinfecting detergent, formulation based on quaternary ammonium, highly concentrated, for the cleaning and disinfection of all kind of surfaces, including food-contact surfaces.

**Pesticide Registration** 17-20/40/90-05503-HA Bag 1,5 L Box 10 I

## **CON**PACK **DEOSOL**

Disinfecting detergent with ammonium quaternary based formula. Ideally suited for the disinfection in one single operation of all kind of food-contact surfaces such as tables, utensils, cold rooms, etc.

**Pesticide Registration** 16-20-02831-HA 16-20-02831

## **CON**PACK **DESINFECTANTE PLUS**

Highly concentrated detergent and disinfectant for the cleaning of all kind of surfaces, including food-contact ones.

**Pesticide Registration** 19-20/90-06398-HA 20-20/90-06398

## **CONPACK DEOBACT D**

Bactericidal and fungicidal detergent, based on quaternary ammonium for one-step cleaning and disinfection of all kind of surfaces in food environment.

**Pesticide Registration** 15-20-07859-HA

## DISHWASHING

Highly concentrated ecological detergent for dishware, glassware, pots and kitchen utensils.

High degreasing power.

**Ecolabel Register** ES/CAT/019/004 Bag 1,5 L Box 10 I

Highly concentrated detergent with excellent degreasing power for the cleaning by hand of very greasy cookware, pans, pots and kitchen utensils.

**Ecolabel Register** ES/CAT/020/010

Box 10 L

Highly concentrated alkaline and ecological detergent for the cleaning of dishware and glassware in automatic dishwashers with dosing systems.

Ideally suited for soft water conditions.

**Ecolabel Register** ES/CAT/015/002

Box 10 I

## **ECO**CONPACK

**A30** 

Ideally suited for hard water conditions.

**Ecolabel Register** ES/CAT/015/002

Box 10 I

Highly concentrated alkaline and ecological detergent for the cleaning of dishware and glassware in dishwashers with automatic dosing systems.

Ideally suited for very hard water conditions.

**Ecolabel Register** ES/CAT/038/001

Neutral, highly concentrated, ecological rinse agent. Suitable for dishwashers with automatic dosing systems.

Equally suitable for all water conditions.

**Ecolabel Register** ES/CAT/015/002

## GENERAL CLEANING

## **ECO**CONPACK

### **SUELOS**

Ecological floor cleaner. Slightly alkaline for the cleaning of all kind of floors.

Presentation in sustainable packaging.

**Ecolabel Register** ES/CAT/020/010

Bag 1,5 L Box 10 I

## **CON**PACK

#### **PLUS**

Highly concentrated alkaline detergent for the cleaning of all kind of floors with a pleasant and long-lasting scent.

Box 10 L

## **ECO**CONPACK

#### **MULTIUSOS**

Ecological and highly concentrated multi-purpose cleaner with antistatic effect for the cleaning, care and shine of glass, tiles, modern and metallic surfaces, enameled objects...

**Ecolabel Register** ES/CAT/019/004 Bag 1,5 L Box 10 L

## **CONPACK**

#### **AMONIACAL**

Highly concentrated detergent with ammonia, for the cleaning of all kind of surfaces.

> Bag 1,5 L Box 10 L

## **CON**PACK

#### **BAC**

Deodorizing and sanitizing detergent. Highly concentrated. Ideally suited for the cleaning of all kind of surfaces, floors, bathroom surfaces....

The product complies with the UNE-EN 13697 rule (bactericidal, fungicidal and yeasticidal) and the UNE-EN 14479 rule (Norovirus).

**Pesticide Registration** 20-20/40/90-10515

Bag 1,5 L Box 10 L

## **ECO**CONPACK **SUPERFICIES**

Concentrated ecological detergent for the cleaning of all kind of bathroom surfaces.

Gentle on any surface.

**Ecolabel Register** ES/CAT/020/010

## GENERAL CLEANING

Anti-calcareous scale-remover and deodorizing detergent. Highly concentrated. Ideally suited for the cleaning of bathrooms: cleans thoroughly, removes calcareous sediments and scale. Leaves a pleasant fragrance in the air.

**Ecolabel Register** ES/CAT/020/010

Concentrated anti-calcareous scale remover and deodorizing detergent. Ideally suited for the cleaning of bathrooms: cleans thoroughly, removes calcareous sediments and scale from toilets. Leaves a pleasant and fresh scent in the air.

> Bag 1,5 L Box 10 L

## LAUNDRY

## **ECO**CONPACK

Concentrated alkaline base for prewash and main wash of all kind of clothes. Powerful degreasing and sequestering power.

Combined with the enzymatic detergent ECOCONPACK ZYM, they form one very efficient product in the washing bath.

**Ecolabel Register** ES/CAT/039/001

## **ECO**CONPACK

**ZYM** 

Neutral enzymatic detergent. Highly concentrated. Ideally suited for the prewash and main wash of all kind of fabrics at low temperature.

Combined with the alkaline base ECOCONPACK ALC, they form one very efficient product in the washing.

**Ecolabel Register** ES/CAT/039/001

## **ECO**CONPACK

OXI

Active oxygen-based bleach, highly performing at low temperatures for all kind of white and colored fabrics. Non-scented.

Does not generate vapor emissions or unpleasant odors for the consumer.

**Ecolabel Register** ES-CAT/039/001

## **ECO**CONPACK

SOFT

Highly concentrated, scented fabric softener. Highly performing on all kind of textile fibers and clothes.

Reduces static cling on clothes. Yields a pleasant feeling of freshness and long-lasting softness.

**Ecolabel Register** ES-CAT/039/001

## **CON**PACK

**SENSE** 

Highly performing and scented fabric softener. Ideally suited for all kind of clothes and fibers.

Contains an encapsulated fragrance with residual effect.

Reduces static cling.

## **CON**PACK

**PROTECT** 

Softener with antimicrobial protection effect for all types of fabrics and textile fibers.

High performance protective action, which prevents the proliferation of microorganisms in tissues for more than 7 days.

Box 10 I

Box 10 I

## LAUNDRY

Highly concentrated disinfectant product suitable for all types of fabrics: cotton, wool, synthetics, white or colour.

**Pesticide Registration** 19-20/90-06398-HA 20-20/90-06398

## **WET CLEANING PRODUCTS**

Concentrated liquid detergent. Suitable for the washing of delicate fibers such as silk, wool and coloured

**Ecolabel Register** ES/CAT/039/001

Box 10 L

Concentrated liquid finishing agent for laundry and washing processes.

Ideally suited for the washing of silk and wool.

## **AUTOMATIC DISHWASHERS**

#### → EUROSYSTEM & PR2

Automatic dosing systems for detergent and rinse aid in tunnels and dishwashers.

## LAUNDRY

#### → MINI TETRAMATIC

Dosing system for laundries allowing automatic supply of liquid product into the washer-extractor according to the current washing cycle.

This set consists of five/seven peristaltic pumps dosing five/seven liquid products with flush manifold for transport to the washers.

#### **→ MULTIMATIC**

Dosing system for laundries allowing automatic supply of liquid product into a maximum of five washer-extractors.

This set consists of pumps dosing up to seven liquid products with flush manifold for transport to the washers.

Box 10 I

Box 10 L

## GENERAL CLEANING AND KITCHENS

#### $\rightarrow$ ECOSHOT

This dosing system allows accurate product dosing into a bottle, bucket or sink.

Diluted with water, it enables to create ready-to-use products.

Bag 1,5 L

#### **→ ECOMIX MULTI 4L**

Automatic diluting system, based on a venturi system, allows dosing up to four different chemicals.

Bag 1,5 L Box 10 L

Automatic diluting system, based on a venturi system.

Allows diluting the product with water to create a final solution for application in bottle, bucket or sink.

Bag 1,5 L Box 10 L

### **APPLICATION SYSTEM**

#### **ECOCONPACK HOLDER**

This system has been designed with a holder for each product to offer maximum versatile application:

- Placement with or without cardboard, placing the bag directly.
- Placement directly on the floor or mounted on the wall.
- Option to place casters to offer a better mobility to the system.
- Option to place a product level sensor.

#### **QUICK CONNECTION**

The guick connection avoids direct contact with the chemical product and is easier to fit to the bag thanks to the new holder design.
